

POLICY STATEMENT**BUSH FIRE POLICY**

Total Fire Ban Days

On Code Red “Catastrophic” Days, our school will be closed.

However, on other Total Fire Ban days children are required to attend school unless parents decide otherwise. A note regarding absences will be required.

Special precautions are taken on these days by collecting a student attendance roll in both the morning and afternoon sessions and by keeping informed of any fire activity through the CFA website and through contact with local emergency services.

In the Case of a Fire

- All children, staff, volunteers and onsite workers will evacuate to our school hall. This is our ‘safe place’ building that has been established to ensure safety for Tecoma students and staff, Tecoma preschool students and staff and anyone working onsite at the time.
- The school has adequate drinking water supplies and biscuits for the children to be held in this location for up to 24 hours.
Parents please note: our school hall is not a refuge for the community or parents and you will not be able to join your children in the hall in the event of an evacuation.
- The school will determine the time of the implementation of evacuation plans and will liaise with the CFA, the Department of Education and police response teams.
- The release of students to parents will be determined by the CFA, when it is deemed safe to do so. Parents will not be able to collect children from the school until this time. This may mean that the school’s duty of care extends into times outside normal school times.
- Before and After School Care children are included in our plans.
- Once everyone onsite is at our ‘safe place’ parents will be notified by SMS and FlexiBuzz that we have enacted our evacuation plans. This will also urge parents not to come to the school, as they will not be able to enter the hall and children will not be able to be released until the CFA and Emergency Services directs the Principal that it is safe to do so. Parents will be notified, by SMS and FlexiBuzz, once approval has been given that it is safe to release students.
- CFA and emergency services strongly recommend that people are not travelling on roads, even for short distances, at these times. With expected road blocks, there is no guarantee that you will be able to travel to or from your destination.
- Parents are strongly encouraged to implement their personal fire safety plans in the event of an emergency.
- Parents are urged not to phone the school as this line may be required to contact the Department of Education and emergency officers. We cannot assume that mobile phones will be operating.
- Parents are urged not to attempt to come to the school as this will often be very unsafe to do so. The school car park will be required for authorised vehicles.

- CFA information will be broadcast on ABC radio and local radio stations as well as their website www.cfa.vic.gov.au. In the event of an emergency, parents are strongly encouraged to listen to this for further information. Our schools' emergency plans include the use of a portable radio and a broadband scanning device.

School Closures

Schools (government and non-government), kindergartens and child care facilities determined by the Department to be at high-risk of fire danger have been placed on a Bushfire At-Risk Register (BARR) and will be pre-emptively closed on days when a Code Red (Catastrophic) fire danger warning is issued.

Tecoma Primary School is a school on the BARR.

Where possible, up to 3-days' notice of a planned closure will be provided; parents and carers should however, expect that in some instances fewer than 3-days' notice may be provided.

Once the final decision to close is confirmed at 12 noon the day prior, this decision will not change – regardless of any changes in the weather forecast. This will help limit confusion and help your family plan for how your children will be cared for when the school is closed.

When our school is closed on a code red day, no staff will be on site. The safety of children and staff is the paramount consideration.

The school has an SMS system in place, plus a FlexiBuzz app, which will be used to advise parents in the event of a school closure. Therefore it is imperative that we have up to date contact numbers. Please always advise in writing of any changes to contact numbers. We will also rely on the networking of members of our school community to ensure that parents are aware of any closures.

EVALUATION

Evaluation of this policy will be carried out by the Education Subcommittee as part of the Education Committees cyclic review process, in three years' time, or beforehand, if a significant issue arises.
